

**WAY FORWARD from
1st uMHLATHUZE DEVELOPMENT &
PLANNING SUMMIT**

WAY FORWARD

STRATEGIC ISSUES ⁽¹⁾

If we have to sustain the impact and strategic direction in this journey, my proposals are as follows:

- 1.1 After this summit, the committee would sit and de-brief and see how we are going to strategise in collating all the important information presented

Thereafter we would

- 1.1.1 Develop a summarised information repository that has a packaged summary (similar to Development Update by Garth)
- 1.1.2 Decide on the strategy of dealing with strategic investors that require this packaged information without bias to earmarked beneficiaries
- 1.1.3 Develop strategies on how to follow-up progress on the projects that have been presented

WAY FORWARD

STRATEGIC ISSUES (2)

- 1.2 As a strategic committee, we should endeavour and continue to coordinate and integrate the uThungulu Strategic Development as a permanent initiative**
- 1.3 We need to have committee members that are dedicated and have the vision and foresight to drive this committee strategically**
- 1.4 We need to derive deliverables that will enable us to account to any other important organisation, government of our role and achievements in the area**
- 1.5 We need to develop database/repository for instant, integrated information for any potential investor/FDI (Foreign Direct Investment) in our area**
- 1.6 We need to be committed as humble servants of our area with the business strategies that enhance all stakeholders in the defined area**

WAY FORWARD

ACTION ⁽¹⁾

The following should be considered :

1. **Identify projects which the Committee should engage with**
2. **Prioritize projects and initiatives**
3. **Establish Sub-committees or Special Interest Groups**

The following requires urgent attention and action (align with UDA) :

- ❖ **Airport**
- ❖ **2010**
